

Graduway BB CRM Integration

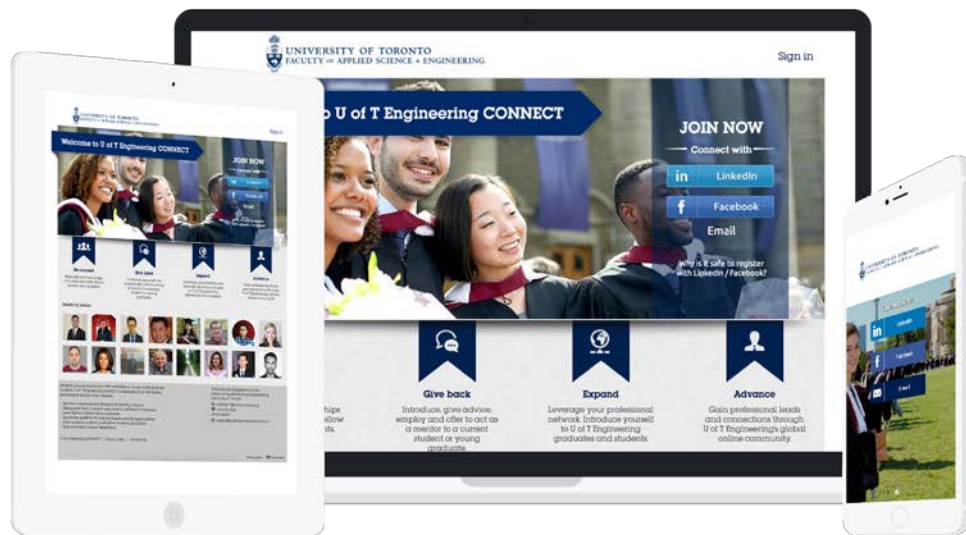

David Tenne
CTO, Graduway
david.tenne@graduway.com

28th June 2018

The background of the slide is a purple gradient. In the center, there is a faint, semi-transparent image of a graduation ceremony. It shows a group of graduates in gowns and caps, with many of them throwing their caps into the air. The caps are captured in mid-air, creating a sense of movement and celebration. The overall tone is celebratory and academic.

Graduway

Graduway is the leading provider of alumni networking and mentoring platforms for colleges and universities

CRM Integration

Motivation

Augment CRM data

Goals

Getting up to date information about the end-user

Auto approval of registrants

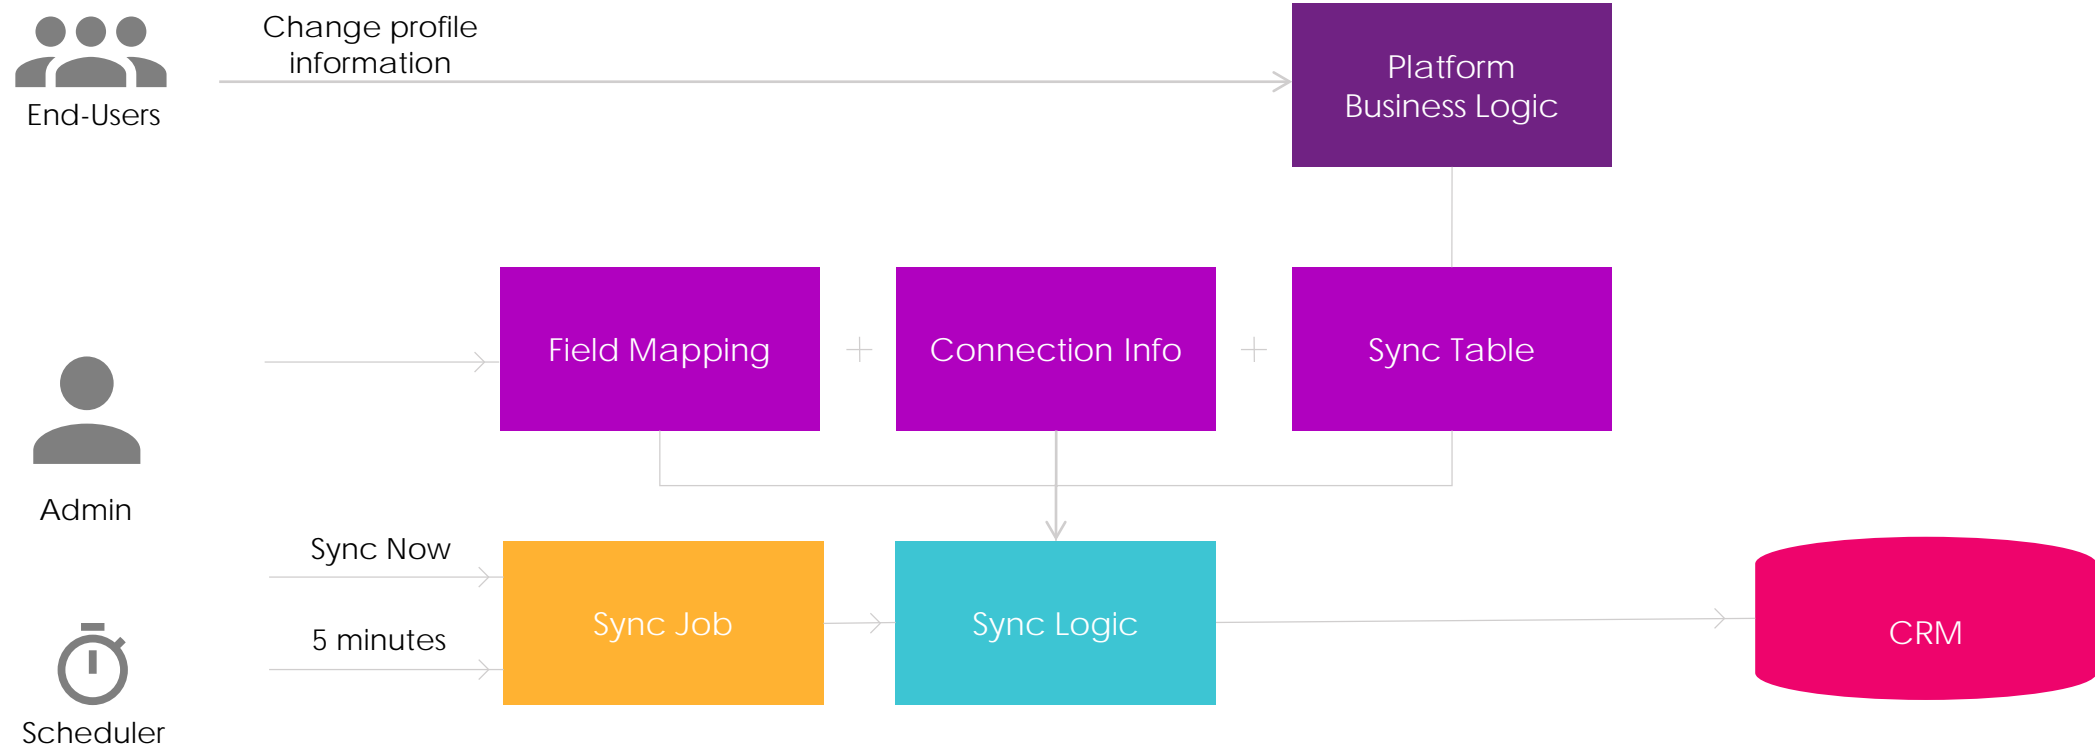

More/Advanced

1. Mentorship program tracking
2. Contributing back – willingness to help
3. (Correlation between platform engagement and donation)

Demo

How does it work

Key features

Resiliency

Testing

Monitoring

Historical updates

Batch updates

Rollout process

Stats

13 customers

100K records were updated since public launch (a half a year ago)

68.13 updates per day per customer

47.32 is the frequency of updates per user (days)

Effort

Product

~Month to spec out together with a design partner

Development & QA

- 3 months to beta
- 3 months to test, fix/refine
- Rinse and repeat

Future Plans

More data & CRM systems

Our own batch

Configuration test

Move the fields mapping from our Backoffice app to the customer's administrative interface

Push info to admin: Alerts, Stats

Other notes & tips

Utilize external knowledge and help to speed up development

Understand your internal processes and how your application is effected by them

Utilize the highly skilled resources you have in the university - the faculty members
